

NOUR IBRAHIM ALBATTNIJI

Full-Stack Developer

+20 109 504 8036 • Cairo, Egypt • nour.albattnji@gmail.com • [GitHub](#) • [LinkedIn](#)

SUMMARY

Full-stack developer experienced in Django, Django REST Framework, React, and Next.js, with exposure to SaaS products, multi-tenant systems, and business requirements analysis. Builds and deploys end-to-end web applications while pursuing a Computer Engineering degree.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, Java, C++, HTML5, CSS3, Sass.

Backend & Databases: Django, Django REST Framework, Django ORM, REST APIs, PostgreSQL, MySQL, SQLite.

Frontend: React.js, Next.js, React Router, Redux, Tailwind CSS, Bootstrap.

Cloud & Tools: AWS EC2, Vercel, Netlify, PythonAnywhere, Git, GitHub, Postman, Axios, Jira.

Practices: Agile/Scrum, SaaS & Multi-Tenant Systems, Requirements Analysis, Database Design, Code Review, AI-Assisted Development.

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern | Trendow Marketing Agency • July – October 2026 | Cairo, Egypt

- Contributed to SaaS web products, including work involving multi-tenant systems and business-focused software.
- Participated in business analysis and translating requirements into technical development tasks.
- Supported full-stack implementation, software planning, and iterative problem-solving.

TECHNICAL PROJECTS

CodeQuest | Axsos Academy | [Source Code](#) | [Live Demo](#)

- Built a coding platform with student and teacher workflows for challenges, assignments, submissions, and progress tracking.
- Designed Django data models and APIs and developed the React front end.

Stack: Python, Django, React, JavaScript, MySQL

StudySync | Axsos Academy | [Source Code](#) | [Live Demo](#)

- Developed an exam-tracking and Pomodoro study-planning application.
- Deployed the application to PythonAnywhere.

Stack: Python, Django, JavaScript, SQLite.

E-Commerce Website | Route Academy | [Source Code](#) | [Live Demo](#)

- Built product browsing, cart, checkout, and custom authentication features.
- Used Redux, React Router, and Axios for state management, routing, and API integration.

Stack: React, Tailwind CSS, Redux, React Router, Axios

EDUCATION

Bachelor of Computer Engineering | Islamic University of Gaza • 2022 – Present

Full-Stack Developer Bootcamp | Axsos Academy, Palestine • 2025

- 660+ hours covering web development, Python, algorithms, data structures, and collaborative capstone projects.

ADDITIONAL TRAINING & ACHIEVEMENTS

- **Odoo Technical Workshop & Hackathon | Gaza Sky Geeks / Odoo** • July – August 2026 - Completed the Odoo technical workshop and participated in the GSG Odoo hackathon.
- **Competitive Programming Training | Gaza Sky Geeks / Coach Academy** • July 2026 - Studied dynamic programming, graphs, DFS, BFS, and trees.
- **ICPC ECPC Qualifications** • August 2026 - Participated in the collegiate programming contest.
- **Front-End Development Diploma | Route Academy** • 2024 – 2025 — Trained in React, JavaScript, responsive UI development, and API integration.
- **Java Programming Course | Vision Plus** • 2023 - Studied object-oriented programming, data structures, and file handling.
- **IT Foundation with Python | Gaza Sky Geeks** • 2022 - Studied Python fundamentals, programming logic, and problem-solving.
